william.spoonplugger.lorch@gmail.com

Last meetings attendee's

Ted Malo Jerry Borst

Chris Angsten Russell Lewis

Jim Taylor Bill Lorch Maureen Halleran

Welcome New Member Dave Hansen

The Northern Illinois Spoonpluggers would like to announce

Our clubs own Certified Spoonplugging Instructor **Jerry Borst** at the May meeting will be performing a slide presentation on Basic fish movements. These slides were put together by Buck Perry himself as a tool for educating our Spoonpluggers and through repetition keep our veteran Spoonpluggers remembering some of the basics they may have forgotten. All new members be sure to attend as this will be a very informative presentation about fish habits and what we must know throughout the season to locate and catch all species that swim in our inland lakes and reservoirs. Jerry also makes himself available to those members who need on the water instruction. If any of you are having trouble on the water set up a date of on the water instruction with Jerry you will be glad you did !

Last Meeting

Members drew maps and talked about lakes in Illinois and southern Wisconsin and some of the structure situations within them. They also talked about how water color in some lakes does change throughout the year and to fish accordingly when the water is dark and warm crank it up !

Members of the Northern Illinois Spoonpluggers were present at the Illinois Spoonpluggers Winter Seminar at the Elk Grove Village Public Library. 1st row Bob Borst ,Vic Saunders, Ted Malo 2cd row Chris Blatzheim, Chris Angsten, Jerry Borst, Bill Lorch, Jim Taylor. The Illinois club did an outstanding job as usual. Chase Klientaker made an amazing full slide presentation that really had everyones attention. Guest speakers Brett Christensen about before and after spoonplugging. Jerry Hien and his first day on the water. Scott Duff with Migration routes revealed in reservoirs at drawdown. John Bales ended the day with a great presentation on Tools and Controls. John talked about the different lures (Tools) he uses to control his casting situations in the fall and in the spring. John also stressed on how critical speed control is at these times. He also stressed using the right Tool for the right situation. Everyone involved did a great job in the planning and organizing this event. See you next year!
