month April to November

Last meeting

We had a great turn out last meeting. Old members and new participated in club discussions. Members talked about fishing nearby lakes because catching big fish all season long and close to home comes first. The Spoonplugger is successful at home and abroad. A good number of lakes in Wisconsin, Illinois and Indiana have trophy fish in them and most are within 75 miles.

Spoonpluggers that own a boat and live near these areas should have at least ten lakes that arn't too far away in there back pocket. Remember 75 miles is close for a good lake with lot's of fish, good water color, and good structure ect. The best Spoonpluggers will drive a few miles more to gain knowledge and be where they have the best chance to catch trophy fish.
