

# Illinois Spoonpluggers Newsletter

Dedicated to the teachings of E.L. "Buck" Perry  
The Father of Structure Fishing

## **Octboer Meeting Notes: By Phil Szafranski**

This meeting had nine members attending. The meeting focused on the discussion of the recent Jamboree from the prior week. Structure maps were drawn at the meeting to discuss the more productive areas found at the outing. The overall fishing was tough in Kentucky during most of the week, however, as the back end of the week progressed, more fish were caught.

Remember that the November 10<sup>th</sup> meeting will be our annual business meeting. We will be discussing current job responsibilities, along with any ideas that fellow members want to introduce for the betterment of the Club in 2012. This is your time to impact positive change in the club for future meetings. All ideas are certainly welcome! If you would like to introduce an idea prior to the business meeting to allow other members time for consideration, please email me at [szafranskil@sbcglobal.net](mailto:szafranskil@sbcglobal.net).

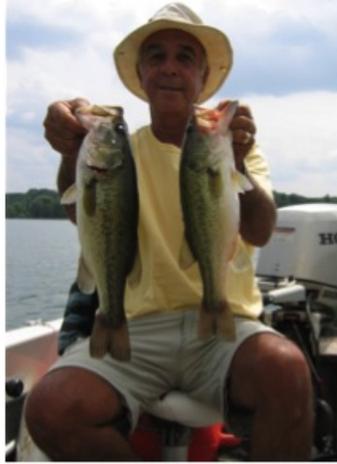

## **Club Notes:**

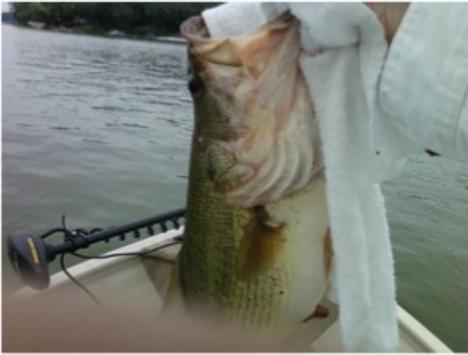

**Jim Taylor:** "Any interest in a club outing to Shelbyville for next spring? I'll do the legwork, e.g. search for lodging, arrange for a group rate(if available), boat launches, etc. What with the nation's foremost expert on Shelbyville (Jim Shell) in our club, we could have lots of discussion about fishing the lake."

## **Fishing Reports:**

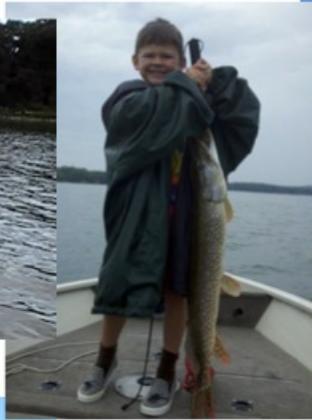

Over the past couple of months we have received a number of reports from all the Midwest and Canada showing how deadly the spoonplugging knowledge is when applied to anybody of water. By following the basic guidelines our club members have made some outstanding catches even under terrible fishing conditions. Thanks Buck!!
